## WEB DEVELOPMENT

Web development process includes that are good to take to build an attractive, effective and responsive website.

Responsive web design (RWD) is a web development approach that creates **dynamic changes** to the appearance of a web site, **depending on the screensize and orientation** of the device being used to view it.

## MINI PROJECTS

### URL SHORTENING APPLICATION

**Skills Used : ReactJS, NodeJS, MongoDB**

It's an url shorten app user can login and register the account.

User enter the long url and it converts into the short url. Whenever the user click on the short url it will redirect to the long url page
